Comments: Going out and spreading the good news is my MOTO about birth, death, burial and resurrection of Jesus Christ. This year I noticed transformation amongst believers leadership and the church at large. Tzikisai Circuit as we are concluding 2025, during this frantic period they are uniting and working together, praying and encouraging each other. There are such cooperation in a friendly outcries and hopefully next year there is big room to do more for the Lord as I will continue uplifting His name. John 14 vs 6. There are challenges also at Murezu and Sombira mostly in communication due to network problems and because of that they lag behind to some activities

and programmes. Resolution, I wish to make  
frequent visits where possible since we are in  
rain season and we might experience river and  
stream flooding such that they keep updated.

Comments: Evangelism is at its peak, so far this farmic  
season I am strategizing to involve our youth to  
assist in the fields, helping the aged elderly people with  
firewood etc to connect well with the community  
and to be vibrant and to be having an impact.  
People are motivated to be associated with Christ,  
the church here is united and working together, all I  
can say, Tsikisa circuit is showing progress  
as one to church activities, updates are made, and  
co-operation is cropping very well and the door of faith  
is opening wider. John 10:9 people are being saved.

We are doing Bible study and the book under study is Acts and it's relevant to the practical lives of people and we are addressing real issues and transformation is taking place in our Circuit. On the 23<sup>rd</sup> of November we had our big Sunday at Sombiza and the attendance was 111.

Our Boiler project at Torkuan is growing and to other churches I am encouraging them to start also. We are going to have our planning meeting, date to be told
